Release Notes

DigitalShipper is pleased to announce that DigitalShipper 5.9.24 has been released! This release includes enhancements, improvements, and minor bug fixes. Highlighted in this document are the key changes.

IMPORTANT NOTE:
For environments currently on DigitalShipper 5.9.11 or older: • An updated license file that is compatible with DigitalShipper 5.9.12 and above is required. The updated license <u>must</u> be obtained <u>before</u> starting the DigitalShipper update and then be imported after the update.

UPDATES IN DIGITALSHIPPER 5.9.24

2025 CARRIER COMPLIANCE UPDATE

- 2025 carrier compliance update for the following carriers:
  - UPS
    - New rates effective December 22, 2024.
  - Spee Dee Delivery (SDD)
    - New and updated zones and routes effective January 6, 2025.
  - United States Postal Service Carrier (POS)
    - New rates for Legacy eVs effective January 19, 2025.

DIGITALSHIPPER

- Order Packing Feature
  - Updated workflow to include Shipping Notes and Commodity Unit of Measure.

UPDATES IN DIGITALSHIPPER 5.9.23

UPS

- Adjustment related to minimum billable weight for packages that incur additional handling based on dimensions.

UNITED STATES POSTAL SERVICE CARRIER (POS)

- Corrected workflow to appropriately identify the USPS service when using custom site service codes.

DIGITALSHIPPER

- Adjustment to the site defaults workflow for international statements' length.
- Adjustment for Infor CSD integrations:
  - Updated workflow for responses with an error code and a success message structure.

UPDATES IN DIGITALSHIPPER 5.9.22

UPS

- Added additional validation rules for shipments with Paperless NAFTA C/O.

ENDICIA (END)

- Added service for USPS Priority Mail Express Padded Flat Rate Envelope (ENDPOSEMPFR).

DIGITALSHIPPER HOST CONNECTOR

- Added commodity item lookup workflows to Ship With Other Goods (SWOG).

UPDATES IN DIGITALSHIPPER 5.9.21

DIGITALSHIPPER LICENSES

- New workflow for importing a license, to now include a preview of the incoming contents and options to cancel and continue.
- Added license expiration date and serial number to the View Company page.

UPS

- Minor adjustment in SurePost label content.
- Updated Delivery Area Surcharge zips.

UPS MAIL INNOVATIONS (UMI)

- Adjusted weight breaks for Ground Advantage (UPSMI1) and Parcel Select (UPSMIPS) for packages under one pound.
- Parcel Select Light Weight has been discontinued by the USPS.
    - o Removed Parcel Select Light Weight services (UPSMIPSLWI and UPSMIPSLWM).
    - o All Parcel Select services are consolidated into the current Parcel Select service (UPSMIPS).
    - o Any custom service codes configured for a Parcel Select Light Weight service will need to be manually updated by a user to the Parcel Select service. This includes for any rate shop groups utilizing a custom service code configured for a Parcel Select Light Weight service.
- Added Peak Season surcharge special services.
    - o Charges are based on weight, length, cube, zone, and/or demand surcharge.
    - o Surcharge values must be manually configured in DigitalShipper Management Console and are effective based on configured date.
    - o Automatically applied when applicable, based on package information, and when there is a corresponding special service rate greater than $0.
- Minor adjustment to PLD file.

UNITED STATES POSTAL SERVICE CARRIER (POS)

- Minor adjustment to label workflow for USPS Ground Advantage.

DHL

- Modified DHL eCommerce shipping workflow for improved handling of international commodity information for shipment-level reporting in the outbound transaction.

APPLICATION SETTINGS

- Added option for automatic parsing for scanned dimensions.
    - o When "Enable Dimension Parsing For Scanned Input" is enabled, option allows the user to scan dimensions into the Length field on the Shipments page for select dimension formats.
    - o Contact DigitalShipper Support for available formats.

BATCH ORDER SHIPPING

- Adjusted workflow for site service code applied during the ship transaction when the order has been rated.

DIGITALSHIPPER HOST CONNECTOR

- Minor adjustments to message data fields.
- Added field commodity ECCN.

UPDATES IN DIGITALSHIPPER 5.9.20

SITE INFORMATION

- Added Time Zone field for sites.
  - Initial value assigned based on state. This setting can be reviewed and adjusted in DigitalShipper Management Console as needed.
- Updated workflow for editable site information values.

UPS

- Added special service for UPS contract-service Regulated Goods.
- Updated PLD for USPS PIC numbers.
- Minor adjustment for select UPS Hundredweight DAS and EAS.

UPS MAIL INNOVATIONS (UMI)

- Updated PLD for USPS PIC numbers.

UNITED STATES POSTAL SERVICE CARRIER (POS)

- Updated workflow for USPS API.
  - New Go Live process for POS accounts utilizing USPS API. Postal transactions must be authorized prior to shipping.

APPLICATION SETTINGS

- Updated 'Require Dimensions' option to now be two separate options: 'Require Dimensions for Generic Carriers' and 'Require Dimensions for Parcel Carriers'.

UPDATES IN DIGITALSHIPPER 5.9.19

UNITED STATES POSTAL SERVICE CARRIER (POS)

- Added USPS API with support for domestic, APO/FPO/DPO, US territories (PTFAS), and international shipments.
  - The USPS is actively encouraging all eVs customers to implement the new USPS API.
  - DigitalShipper will end support for eVs transactions using the PDX upload on September 30th.
- Carrier compliance USPS price change update for select services, effective July 14.

USPS E-POSTAGE (PWT)

- The USPS and DigitalShipper are ending support for PWT on July 14.
  - Existing accounts must be transitioned to USPS API by the support-end date.

UPS MAIL INNOVATIONS (UMI)

- Added Non-standard accessorials for domestic parcel services.
  - Surcharge values must be manually configured in DigitalShipper Management Console.
  - Automatically applied when applicable, based on package information.

ASENDIA (ASC)

- Added new 'ePAQ Plus Custom' service.

SHIPT DELIVERY SERVICE (SDS)

- Workflow updates for multi-retailer logistics accounts.

UPDATES IN DIGITALSHIPPER 5.9.18

FEDEX (FDX)

- Updated workflow for FWS international shipments containing Dangerous Goods.

UNITED STATES POSTAL SERVICE CARRIER (POS)

- Corrected USPS Ground Advantage weight-break calculation for certain less than 1-pound scenarios.
- Corrected zone calculation for accounts with an Entry Zip configured.

UPS

- Updated workflows for Time In Transit, Dangerous Goods, and Address Validation using the UPS API to latest version.
    - Legacy API that uses the access key is no longer supported.

UPS MAIL INNOVATIONS (UMI)

- Minor label change for certain services.

DIGITALSHIPPER HOST CONNECTOR

- Workflow and message content updates.

UPDATES IN DIGITALSHIPPER 5.9.17

FEDEX (FDX)

- Adjustment for FWS and FedEx Dangerous Goods A88 DG items.

UPS

- Added advanced carrier configurations related to UPS Access Point packages.
- Modified workflow for UPS Access Point and Hold For Pickup.
- Update for UPS SurePost Less Than 1 lb. tracking numbers.
- UPS DAS data update, effective April 8.

UPS MAIL INNOVATIONS (UMI)

- Carrier compliance label update for domestic packages.
- Update for PSLW services' tracking numbers.

SHIPT DELIVERY SERVICE (SDS)

- Updated API workflows, effective April 19.

UPDATES IN DIGITALSHIPPER 5.9.16

SPEE DEE DELIVERY (SDD)

- Carrier compliance update for new service area zones and sort codes, available April 8.

DIGITALSHIPPER HOST CONNECTOR

- Workflow updates.
- Support for new host type.

UPDATES IN DIGITALSHIPPER 5.9.15

UPS

- Adjusted workflow for UPS Access Point label data.
- Adjusted workflow for Hold For Pickup consignee designation.
- Updates for SurePost and UMI shipments containing Limited Quantity and/or Lithium Batteries.
- Carrier updates for international tax/ registration numbers.

UNITED STATES POSTAL SERVICE CARRIER (POS)

- Updated USPS Ground Advantage labels when 'Content - Hazmat' special service is applied.

GENERIC CARRIERS

- Corrected workflow for manually-entered tracking numbers for single-piece shipments.

CUSTOMER PREFERENCES

- Field added for email address for use with the Notifications Feature.

UPDATES IN DIGITALSHIPPER 5.9.14

ONTRAC (CAL)

- Updated workflow for 'OnTrac WS – West' accounts' closing status to show "Sent".

USPS E-POSTAGE (PWT)

- Added password attribute to rate, ship, void, and scan form transactions.
  - Passwords are assigned by the USPS and will need to be added to PWT in DigitalShipper Management Console.

UPDATES IN DIGITALSHIPPER 5.9.13

2024 CARRIER COMPLIANCE RATE & SERVICE UPDATE

- 2024 carrier compliance rate and service update for:
  - United States Postal Service Carrier (POS), effective January 21.

FEDEX (FDX)

- Minor adjustments for FedEx Dangerous Goods for FWS.

ONTRAC (CAL)

- Adjustment for 'OnTrac WS – West' password format.

USPS E-POSTAGE (PWT)

- Adjustment to prevent shipping with ePostageV1 account type, which is no longer supported.
